

Life Opportunities

Individuals benefit from outcome focused support:

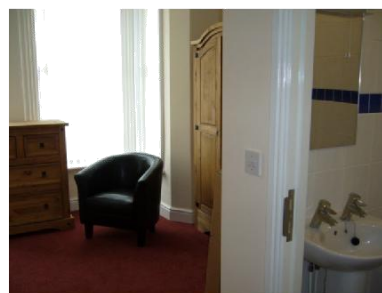

John came to Osborne Road from another supported living environment which eventually resulted in a long hospital admission. John lacked confidence to safely engage in community based activities and the confidence to interact with other people in a purposeful and meaningful way. The staff team's effective support is beginning to show much evidence of his restored confidence, especially through his day to day interactions with others, and completing domestic tasks sometimes with minimal prompts but mostly independently. With increased emotional support when there are setbacks, John's life opportunities continue to increase through consistent participation in planned activities, attendance on courses, improved family relationships and accessing the community independently and safely to go shopping.
