Welcome to Potens Supported Living & Outreach Services

We are delighted to be able to offer a much needed domiciliary service to Surrey and the surrounding areas. I have the pleasure of working with a great team of positive and enthusiastic staff who pride themselves on offering the highest possible care and support in a fun and creative way.

We are a skilled team, many of whom have supported children, young people and adults with learning disabilities, autism and associated conditions for many years.

We work in local communities enabling the people we support the opportunity to remain close to their families, engage and be valued members of society. Whilst also being able to remain in school and college so that their social, education and employment potential is achieved.

We believe on building people's strengths and find creative ways in overcoming barriers so that achievement is maximised. People thrive when they join us!

- We will then work with the parents, social worker and the person to do a full assessment to make sure our service is appropriate for the person.

- We will write to the social worker/nominated person confirming the offer of a placement.
