Moving forward Supported Lives has some ideas to expand a business, as well as giving back to the community:

Manager, Allia's Vision for the future...

"I love what I do, and I wouldn't change it for the world.

The satisfaction I get at the end of the day knowing I made, or I contributed to make, a difference in the people we support is something that I don't think I can describe.

It all started with an idea sat in my back garden - a vision that everyone regardless of their ability could enjoy and live a normal independent life, be it though great outdoors or in the community with others.

At Supported Lives we want to build a service that will help and empower everyone to try new things and new adventures. A service that helps people achieve their highest potential and breaks down barriers and fears."
