

## **Arbour House School**

### **Statement concerning Policy and Procedure implementation during Covid-19 Pandemic.**

Due to the prolonged Covid 19 pandemic and the fluctuating state of societal impacts of the continued community spread of the virus, certain school policies and procedures may not be implemented in the same way as specified within procedure.

Our chief concern during this period of the pandemic is to ensure the health, safety and wellbeing of our pupils and school staff and visitors.

Where the school is not able to operate to same timescales or implement processes in the same way as ordinarily, those affected will be informed and alternatives offered, where this is possible and appropriate.

The following policies and procedures are considered likely to be impacted:

- Safeguarding and Child Protection Policy and Procedures
- Curriculum Policy
- First Aid Policy
- Attendance Policy
- Visitors Policy

Where significant changes to a policy or procedure have been made, this has been done either due to a directive from the Department for Education or in consultation with the wider Potens Board of Proprietors and parent/carers will have been informed accordingly.
